From the desk of Jared Ceja...

CPP Foundation Staff:

We have never had a more challenging fourteen months in our organization's history. Yet everyone pulled together knowing that there was light at the end of the tunnel despite the painful layoffs and furloughs of mid-2020. We are now poised to emerge stronger than ever.

In November 2020, we forecasted a loss of over \$10 million this fiscal year. Fortunately, with your tremendous efforts and support from our campus partners, the loss is now projected to be less than half of that amount. This improved result is primarily due to your ability to cut operational expenses, pursue new and creative revenue opportunities, increase efficiency, grow beneficial programs, and still deliver the exceptional level of service that the Cal Poly Pomona community deserves.

It brings me great pleasure to announce that we will begin to phase out the enterprise-wide temporary wage reductions and furloughs starting this month! This means a gradual cancelation of furloughs with all of them ending by July 24th. The specific end date for each individual's furlough will be dictated by position/workload as we prepare for the repopulation of campus.

While much of our organization is classified as essential employees and have never left campus, most other departments are part of the current population pilot and are now spending at least half of their assignment on site. For those not already working on campus, you are scheduled to be part of the Monday, June 21st Stage II group. It is important to note that some work schedules may look different from the past. I ask for your patience as more information and support materials are forthcoming.

In closing, you have proven to be an exceptionally adaptable and determined group. Your resilience and positive spirit will always have my admiration. This return to campus and end to furloughs is something I have been looking forward to for a long time. I am glad we are finally here. I hope to see you all at the next Town Hall Meeting scheduled for June 10th. Until then, keep up the great work!

Thank you,
Jared Ceja

Employee Profile

Joe Kamansky

Job title: Information Security Analyst

Length of employment: About three weeks

What are your hobbies? I'm really big into astronomy (winter skies are way prettier than summer skies, so I go stargazing with my telescope frequently. I also like to do research for companies' bug bounties. A bug bounty is when a company asks you to try and hack them, and if you find anything, they give you money. It's really challenging and rewarding.

What are your biggest accomplishments? I made the Cal Poly Pomona Collegiate Cyber Defense Team when I still attended CPP. I started with almost zero knowledge about cybersecurity, so I spent my entire summer studying and practicing to make the team and luckily made it. I was so happy after I got the email saying I made the team.

What is your favorite song? Bad and Boujee by Migos. An absolute banger; nothing else needs to be said.

What is your favorite movie? The first Avengers movie. I have really good memories with my friends waiting outside the movie theatre to buy tickets on opening night. I was in middle school at the time (yes, I am that young), and it was one of the few times I was able to go out with friends without adult supervision. Whenever I watch that movie now, I have good memories of that night.

What's the best gift you've ever received? My girlfriend hand-embroidered me an Avatar: The Last Airbender shirt. It was really cool and super thoughtful.

If you could be any animal, which would you be? Literally any bird of prey. Birds of prey are objectively the coolest animals because they are the closest relatives of dinosaurs, and they are birds that hunt and eat meat. How do you get any cooler than that?

What is on your bucket list? I want to ride in a rocket ship, so fingers crossed, private rocket travel becomes a thing in my life, and I simultaneously win the lottery, so I can afford it.

What was your favorite childhood TV show? Avatar: The Last Airbender. Every kid at my school always argued about what element you would bend if you could.

If you could travel anywhere in the world, where would you go and why? Woolsthorpe Manor House - The birthplace of Sir Isaac Newton. He is probably the most important scientific figurehead of all time (sorry, Einstein fans), and I would love to visit just for the historical value of it.

What's the best meal you've ever had? When I visited Japan, my buddy that lives there took me to a hole-in-the-wall ramen place where they make it right in front of you. No air conditioning, super packed and you are constantly sweaty, but my goodness, it was the best food I have ever tasted in my life. I think the worker's accidental sweat falling into the ramen gave it that extra tang.

When you support the services that are owned and operated by the Cal Poly Pomona Foundation, you help students obtain on-campus jobs, and help fund scholarships, campus programs and educational grants. Foundation enterprises include Dining Services, the Bronco Bookstore, the University Village and Kellogg West Conference Center & Hotel.

As the largest employer of students on campus, the Foundation offers valuable work experience and hands-on training to approximately 1,500 Cal Poly Pomona students each year. The Foundation offers positions in various fields; whether it is in the area of technology, science, retail, culinary arts, hospitality management, leadership or research grants, these student employees participate in Cal Poly Pomona's learn-by-doing philosophy and acquire practical skills in their designated field of study.

The Foundation also contributes operating support to nearly 1,100 Foundation and scholarship programs every year, including Bronco Athletics and the Norman J. Priest Scholarship. In addition, the Foundation administers grants and contracts, contributes to campus security, and supports several university publications. The Foundation contributes over \$1 million annually to Cal Poly Pomona.

Because of your support, the Foundation is able to provide these beneficial services every year. Thank you for making your purchases on campus and contributing to the success of Cal Poly Pomona students and the university community.
